PUBLIC SAFETY AND HOMELAND SECURITY BUREAU ACTION

REGION 42 (VIRGINIA) PUBLIC SAFETY REGIONAL PLANNING COMMITTEES TO HOLD 700 MHz REGIONAL PUBLIC SAFETY PLANNING AND 800 MHz NPSPAC REGIONAL PUBLIC SAFETY PLANNING MEETINGS

PR Docket No. 91-300

The Region 42 (Virginia) Public Safety Regional Planning Committees will hold two consecutive planning meetings on Wednesday, April 25, 2007. Beginning at 1:00 p.m., the 700 MHz Public Safety Regional Planning Committee will convene at the Sheraton Oceanfront Hotel, 36th and Boardwalk Street, Virginia Beach, Virginia. The purpose of this meeting is to review and discuss the final draft of the Region 42 700 MHz plan. Beginning at 2:00 p.m., the 800 MHz Public Safety Regional Planning Committee will convene at the same location. The purpose of this meeting is to review and discuss the status of the 800 MHz rebanding process and the Commission's temporary authorization procedures for 800 MHz NPSPAC frequencies during the rebanding process.

Both of the Region 42 Public Safety Regional Planning Committee meetings are open to the public. All eligible public safety providers whose sole or principal purpose is to protect the safety of life, health, or property in Region 42 may utilize these frequencies. It is essential that public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal, and non-governmental organizations eligible under Section 90.523 of the Commission's rules, be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in the planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 42 should plan to attend. For
